BBA Associate Consultant Scheme (ACS)

We are delighted that you have chosen to apply to be a BBA Associate Consultant. The BBA Audit & Inspection unit works with experienced and knowledgeable consultants such as yourself to assist organisations that wish to be certified in one of our Management Systems (MS) schemes or for organisations that need to have CE Marking against the EN1090 standard.

For a company to become certified for **ISO 9001**, **ISO 14001**, **ISO 45001** or **OHSAS 18001**, or **CE Marking** to **EN1090**, they may need to work with a professional consultant to guide them through the individual requirements and process before applying for certification.

At the BBA, we are aware that not all companies have access to an internal consultant, such as a Quality Manager, Technical Manager or Health and Safety Manager, and this is where the BBA's Associate Consultant Scheme can be of benefit.

Advantages of being a BBA Associate Consultant

By becoming a member of the BBA Associate Consultant Scheme, you will have access to a range of organisations that require your expertise to guide them through achieving their certification.

Each BBA Associate Consultant will benefit from working with the market leading certification body that is unmatched in its credibility to deliver Audit and Inspection services.

Additional benefits include:

- Identification as an approved BBA Associate Consultant
- Enhanced personal brand recognition in the industry
- Exposure to organisations that need your skills set
- Provision to use the Scheme logo
- Quarterly business updates
- Access to expert technical support from the BBA's Audit and Inspection team
- Industry update sessions via meetings or webinars
- Access to the BBA whistleblowing process

*"Having a network of Associate Consultants that can deliver ISO 9001, ISO 14001 and ISO 45001 is an important extension to The BBA's Audit & Inspection team. We wish to engage with QHSE/ ISO & EN 1090 consultants that not only are technically qualified but mirror our core company values; **integrity, courage, rigour** and **collaboration**" – Matt Tizzard*

Management Systems

For management system schemes, the BBA Audit & Inspection team is looking for suitably experienced Associate Consultants, competent to assist organisations wishing to comply with the following standards:

- Quality Management System ISO 9001
- Environmental Management System ISO 14001
- Occupational Health and Safety Management System OHSAS 18001 and ISO 45001

For **EN1090**, the BBA Audit & Inspection business is looking for suitably experienced Associate Consultants who are competent to assist organisations with the requirements of the mandatory **CE Marking** to **EN1090**.

Upon your successful application you will receive your BBA Associate Consultant Scheme logo, welcome pack and you will be listed on the BBA website.

As part of a continued membership in the BBA Associate Consultant Scheme, you will be required to renew your membership on an annual basis. Details of this can be found within the BBA Associate Consultant Scheme terms and conditions which have been provided as part of this application form.
