BBA Approved Installer Scheme (AIS)

Client Managed and Client Managed Inspection Service

About the BBA Client Managed Services'

As a manufacturer of a construction product or system, we understand that you have taken the time and effort to ensure that your product meets the required standards and works as it should, with the ultimate aim of making your customers happy.

So we understand that few things can be more frustrating than your reputation being put at risk due to poor installation practices.

This is where the BBA can help you.

The BBA offers a unique service to construction product manufacturers and installer network providers called the **BBA Client Managed Inspection Service**.

How does it work?

The purpose of the **BBA Approved Installer Scheme – Client Managed** is to provide assurance to manufacturers that their product is consistently installed in accordance with their installation instructions through a network of trained, registered and assessed BBA Approved Installers.

Each Installer, once BBA Approved, will demonstrate that they can operate to higher industry standards ensuring that your reputation is not at risk due to shoddy workmanship.

We offer a broad range of inspection services to ensure that installers comply with current Building Regulations, the scheme's requirements and consistently perform quality installs.

For those with their own installer network, the **BBA Client Managed Inspection Service** is also for you.

BBA Client Managed Inspection Service

The purpose of the **BBA Client Managed Inspection Service** is to provide our auditing and inspection services for your existing installer network ensuring that they continue to meet your clients installation requirements, thus reducing internal resource requirements and overhead costs.

Through on-site and office audits we can independently assess your installers, provide unbiased product and installation information and help you to meet the necessary regulatory requirements.

We currently carry out inspections on behalf of:

- Federation of Master Builders
- FMB Insurance Services (previously Build Assure)
- Fairtrades
- Consumer Protection Association

Contact us today at clientservices@bbacerts.co.uk to find out how the BBA can support your installer requirements.
