

BBA Webinar Series

UKCA – How this is going to impact your Business
(part 1 of 3 - 17th May)

Gaining UKCA Marking – A step-by-step guide
(part 2 of 3 - 18th May)

Taking you from ETA to UKTA
(part 3 of 3 - 19th May)

For over 50 years, we've been helping the construction and manufacturing industries build confidence in the solutions designed, created and implemented throughout the entire supply chain.

The BBA develops long-term partnerships with clients and associations to enable continued growth in both the UK and Global marketplaces, while remaining reassuringly impartial.

As a for-profit organisation Limited by Guarantee, the BBA looks to reinvest in the industry as a whole for the benefit of all stakeholders.

INFORMATION

The enclosed information is given in good faith by both the BBA in an attempt to draw attention to key important issues concerning BREXIT and UKCA/CE Marking. To the best of our knowledge this information is correct at the time of this presentation, but further information could affect the content or interpretation of the enclosed presentation. Please ensure that the latest Government information on these issues is used at all times.

Background to CE Marking

- EU Construction Products Regulation 2013
- Product Passport to the European market
- Consistency of declared performance
- Two routes
- Mandatory – via harmonised standards (hENs)
- Voluntary – via European Technical Assessment Guidelines (ETAGs) / European Assessment Documents (EADs) and the issue of European Technical Assessments (ETAs)

What is UKCA marking?

- **United Kingdom Conformity Assessed (UKCA)** Marking will replace CE Marking for any applicable products that are or will be placed in the GB market.
- Mandatory for NEW applicable (designated/harmonised) products placed on the GB market from **1st January 2021**.
Mandatory for ALL applicable products placed on the GB market from **1st January 2022**.
Existing CE Marking will be recognised in the GB until **1st January 2022**.
- Note: Conformity tasks must be carried out by a UK Approved Body.
- www.gov.uk/guidance/construction-products-regulation-from-1-january-2021

UK
CA

UK
NI

What is a UKTA?

- UKTA stands for United Kingdom Technical Assessment
- These are a mirror of ETAs for the UK market
- These can be issued by UK TABs, provided they are competent in the defined product area
- BBA have the widest product range of the 9 UK TABs
- This is a voluntary process for the UK including NI
- Applicable from 1 January 2021
- ETAs will no longer be recognised in GB from 1 January 2022
- Existing ETAS issued by the BBA were transferred to EU TABs before 31 December 2020

Changes from 1st January 2021

UK	Will be equivalent to	EU
United Kingdom UK CPR	=	CPR
UK Designated Standards	=	Harmonised European Standards
Shown as BS EN XXXXX		
United Kingdom Conformity Assessed Marking (UKCA Marking)	=	CE Marking in the UK Market
UK Technical Assessment Body	=	Technical Assessment Body (TAB)
UK Approved Body	=	Notified Body (NB)
UK Approval Document (UKAD)	=	European Assessment Document (EAD)
UK Technical Assessment (UKTA)	=	European Technical Assessment (ETA)
UK Market Approved Body Database (UKMCAB) UK Market Conformity Assessment Bodies - GOV.UK (www.gov.uk)	=	NANDO Database
UK Approved Body Number UK XXXX	=	Notified Body Number XXXX

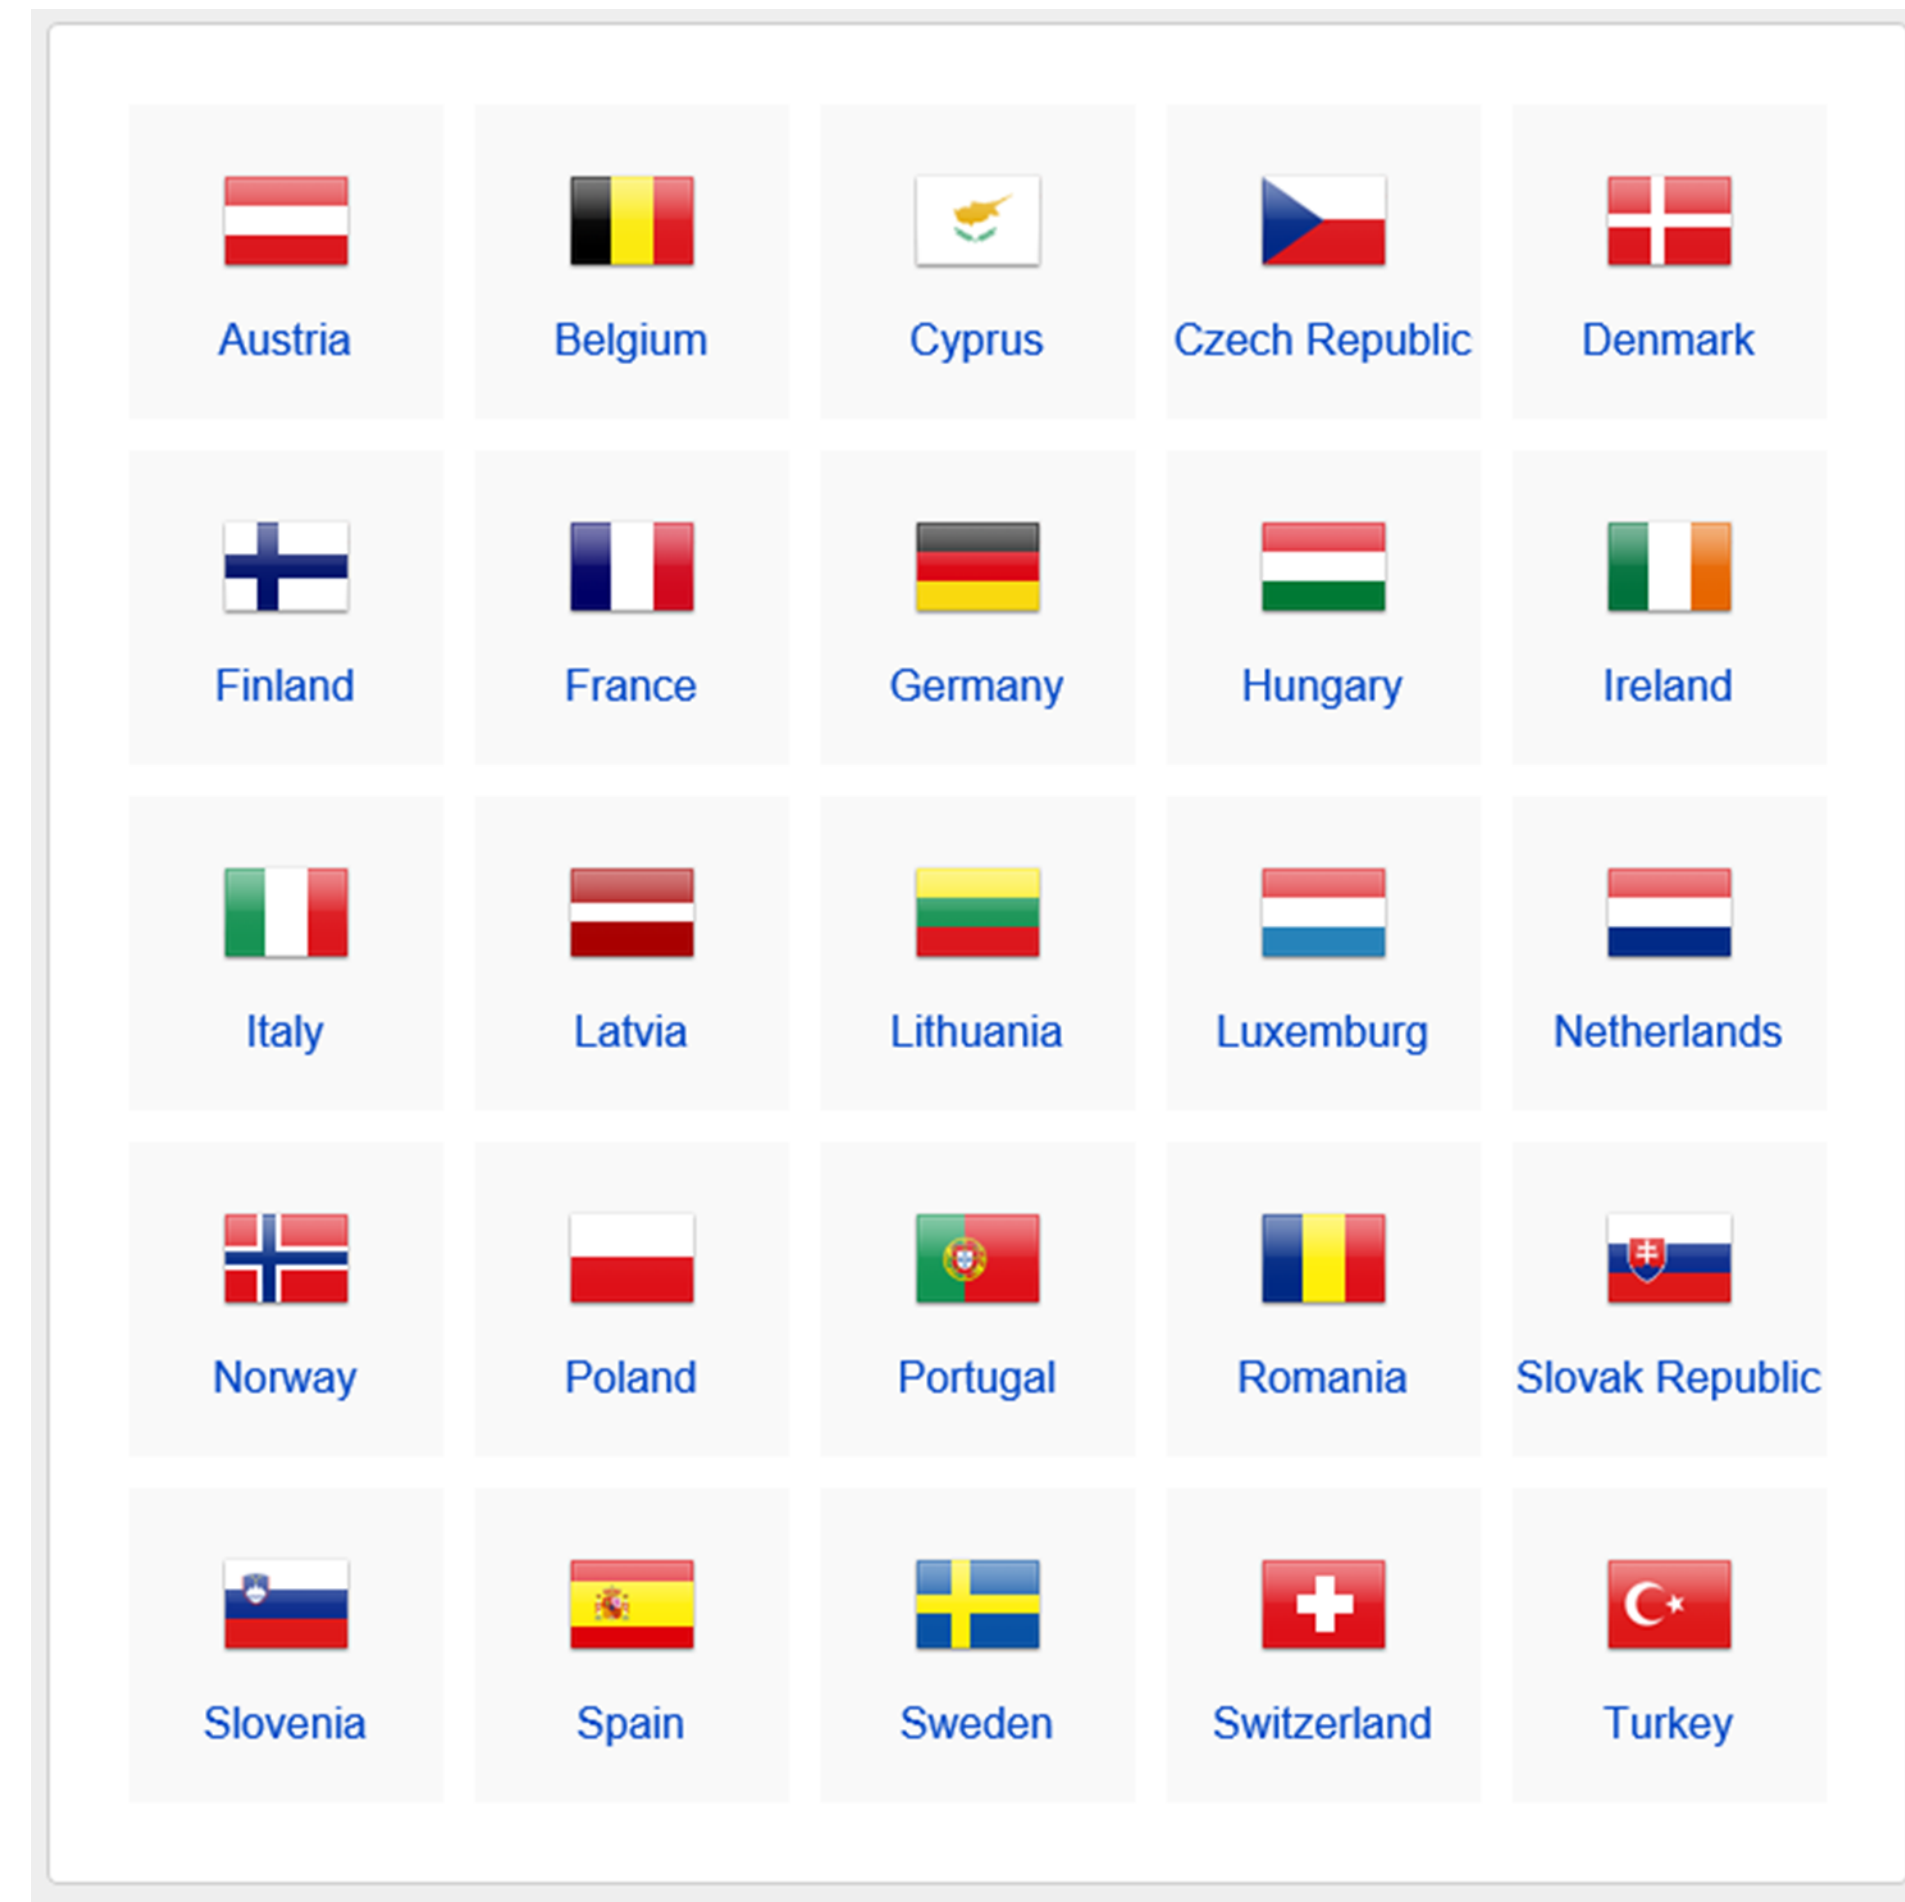

European Organisation for Technical Assessments (EOTA)

- Co-financed by the EC
- Develops and adopts EADs
- Ensures best practises are shared between members and that adopted EADs and references to ETAs are publicly available.
- Works with the EC, EU Member and EFTA States, the European Standardisation Organisations, and other stakeholders in research and construction such as European Contractors, Manufacturing, Technical and European Research Associations.
- The European Technical Assessment (ETA) provides an independent Europe-wide procedure for assessing the essential performance characteristics of a construction product.
- The ETA offers manufacturers a voluntary route to CE marking, where the product is not or not fully covered by a harmonised standard (hEN) under the CPR.

EOTA and EU Technical Assessment Bodies (TABs)

- EOTA is set up by the Regulation (EU) No 305/2011
- Comprises all Technical Assessment Bodies (TABs) designated by Member States of the EU and the European Economic Area.
- A country subject to a mutual recognition agreement (MRA) with the European Union is also considered for membership.
- 25 member countries with 47 TABs
- Over 6000 Current ETAs
- Website www.eota.eu

UKCA marking - Which route do I follow?

Moving to the UK-CPR and UKCA Marking regime will take different forms depending on factors such as:

- The nation in which your company is based
- The markets you sell into
- Whether your product is covered by a harmonised Standard or not
- Your AVCP level (where applicable)
- Whether your third-party conformity tasks are carried out by a UK Approved or EU Notified Body
- Whether your ETA was issued by a UK or EU TAB
- Whether it is an existing product or a new product (i.e. whether it was CE marked at the end of 2020)

Why Convert to UKTA?

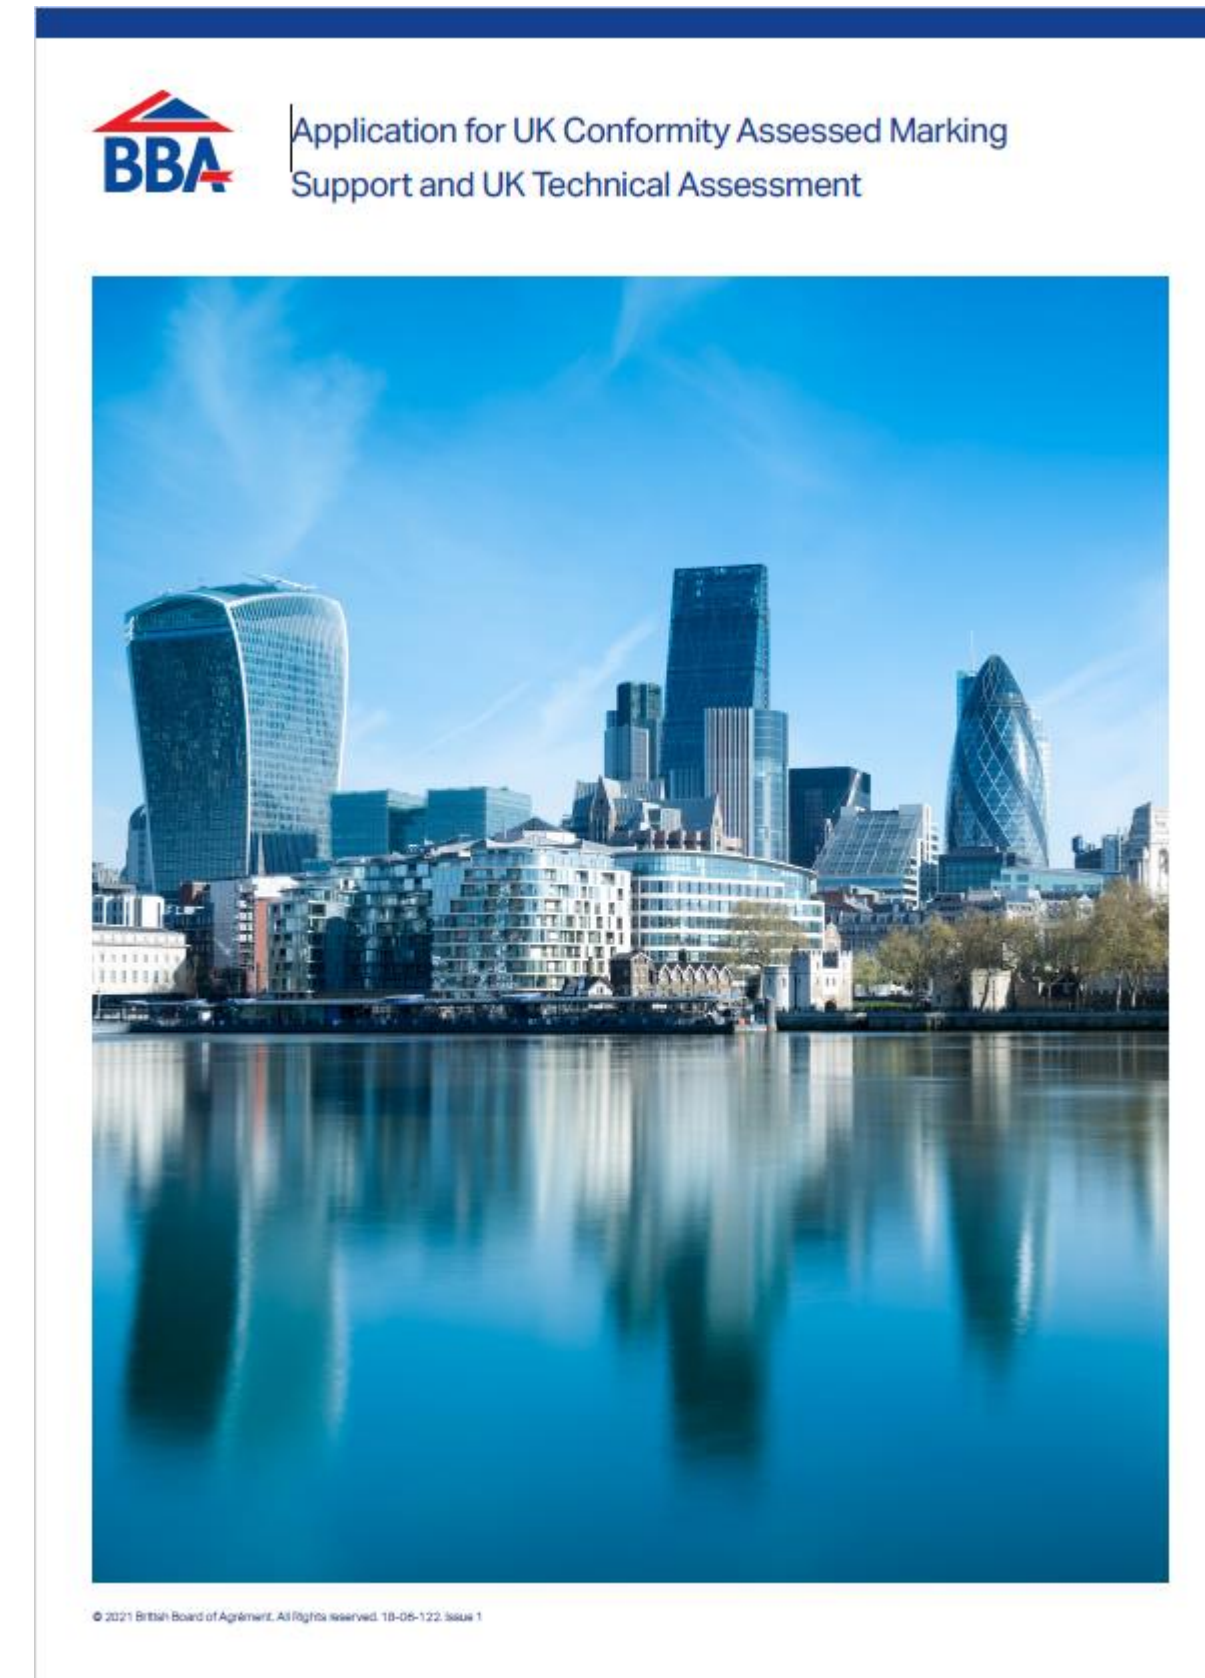

- Recognised by UK specifiers
- Access to the UK Market
- Simple and quick conversion process
- Uses your existing ETA for ease of conversion
- Working with your existing EU Technical Assessment Body
- Future specification may demand UKTA
- ETAs will no longer be recognised in the UK as of 2022
- UKTA's can be a quick and simple route towards a UKCA Marking
- Allows the use of UKCA Marking on products not covered by Designated Standards (formerly hENs)
- Acts as a stepping stone towards gaining a national technical approval – a fully-fledged BBA Agrément Certificate

The 4 Easy Steps to UKTA Conversion

1. Application

Simply...

- Contact the BBA
- Complete the Application form
<https://www.bbacerts.co.uk/wp-content/uploads/2020/11/Application-form-for-UKCA-Marking-support.pdf>
- Include your ETA numbers, the European issuing body (TAB) and relevant EAD/ETAG
- Submit this to: clientservices@bbacerts.co.uk

2. Programme of Work

We will prepare all the appropriate contract documents and issue a programme of work based on:

- a) Evaluation Report from issuing EU TAB or EOTA
- b) Associated Test Reports (if required)
- c) Manufacturer's Technical File / factory production report

DATED

**UNITED KINGDOM TECHNICAL ASSESSMENT (UKTA)
CONTRACT BASED ON A
EUROPEAN TECHNICAL ASSESSMENT (ETA)**

The Applicant
Name:
Registered office (if applicable):

Address for correspondence:

The Subject
Proprietary name:

Nature of product or process: Conversion of XY (insert number) ETA(s) (insert relevant ETA numbers if <5 or reference to Contract Appendix clause 2.1 if >5) for (insert product area of use) and issue of XY UKTA(s).

The Fee: £
Unless otherwise stated, this Contract offer will remain open for acceptance for 90 days from the date stated above. However, the BBA reserves the right to revise the Fee and/or revise/withdraw the offer at any time prior to acceptance by the Applicant.

The Agreement:
The BBA offers to carry out the Work set out in this Contract upon receipt of the Fee stated above. By signing this Contract the Applicant: accepts the BBA's offer to carry out the Work; agrees to pay the Fee; expressly confirms that the signatory has accessed and carefully considered the BBA United Kingdom Technical Assessment Contract Terms and Conditions ('Terms'); and accepts that the Terms shall form part of and be incorporated into the 'Contract' defined in the Terms. The signatory confirms that he/she does not require a printed copy of the Terms and is authorised to sign on behalf of the Applicant.

Signed on behalf of the Applicant..... Date
Name
Job Title
Client Purchase Order Number (if applicable)

United Kingdom Technical Assessment Contract (18-08-125 Iss1)Page 1 of 3

3. Data Assessment

The BBA...

- Works with your existing EU Technical Assessment Body and evaluates the data.
- Prepares the UKTA and circulates for comment if required.
- The UKTA is a mirror of the ETA Certificate, initially these may refer to the EAD/ETAGs and if necessary will be reissued once the nomenclature has been agreed with MHCLG.

4. UKTA Issued

- The UKTA is issued by the BBA to support the Applicant's UKCA Marking (2 months from receipt of data).
- Surveillance to the place of manufacture will be conducted by the EU TAB's nominated Notified Body depending on the AVCP level, 1, 1+ or 2+ with no NB requirements for level 3. The BBA receives the reports from the NB

 British Board of Agrément Bucknalls Lane Watford Herts WD25 9BA Tel: +44 (0) 1923 662300 e-mail: clientservices@bba-certs.co.uk website: www.bba-certs.co.uk	 Designated according to Article 29 of Regulation (EU) No 305/2011	Member of  www.eota.eu
European Technical Assessment		ETA-20/0196 of 22/06/2020
General Part		
Technical Assessment Body issuing the European Technical Assessment:	British Board of Agrément	
Trade name of the construction product:	Centaur Standard PU System	
Product family to which the construction product belongs:	3 : Liquid Applied Roof Waterproofing	
Manufacturer:	Centaur Technologies Ltd 2a Tomlinson Road Leyland PR25 2DX England	
Manufacturing plant(s):	Factory Ref A (Details of the manufacturer are held in the manufacturer's technical file)	
This European Technical Assessment contains:	5 pages including 1 Annex which forms an integral part of the document	
This European Technical Assessment is issued in accordance with Regulation (EU) No. 305/2011 on the basis of:	ETAG 005, Parts 1 and 6, edition March 2000 (revised March 2004), used as European Assessment Document (EAD)	

UKTAs

Is there an equivalent to EOTA under the new system?

- At the moment, no, but this is under discussion
- The BBA has engaged with MHCLG and EOTA on this topic
- We are waiting for details on how the scheme will operate
- The BBA will be in a position to issue UKTAs once the processes are defined
- The BBA will remain an Observer to EOTA, to maintain involvement
- The BBA has a unilateral agreement with EOTA and so can issue UKTAs for existing EADs and ETAGs
- The process has not been fully defined by MHCLG and so is subject to approval
