

Application for BBA Reinforcing Steel Scheme

Application for BBA Reinforcing Steel Scheme

This application is relevant to:

- Product Conformity Certification
- Process Conformity Certification
- BS EN ISO 9001 Quality Management System

The BBA will prepare one or more Certificate(s) on the basis of the information set out in this short Application Form. It is important that your requirements are fully and precisely defined within this document as a failure to do so could result in errors or omissions in the contract.

If there is insufficient space for any of your entries on the form please insert extra pages. If you consider that any of the questions do not apply to your product, mark as 'not applicable'. Please do not leave any sections blank.

Information supplied by you will be treated in confidence and will not be disclosed, other than as required: to any third party that the BBA instructs or consults or in connection with your application; under statute; or by English law.

Please contact your BBA Client Account Manager or Client Services if you have any queries clientservices@bbacerts.co.uk

ISO 9001 Certification

Management Systems - Requirements

Please indicate whether you would like for the BBA to Transfer or Recognise your existing Quality Management System Certification as part of the BBA Reinforcing Steel Scheme.

Existing certification to ISO 9001 will be taken as evidence of the suitability of the quality management system for the scheme, provided the certificate is issued by a certification body accredited by UKAS or an equivalent National Accreditation Body that is a signatory to a mutual recognition agreement, and provided that the scope of the certification is appropriate to the Scheme.

Should you not have an accredited certification provider, the BBA can provide Certification. We would recommend transferring certifications to a single provider, saving you unnecessary duplication of time, effort, and money. Find out more [here](#).
