For over 50 years, we've been helping the construction and manufacturing industries **build confidence** in the solutions designed, created and implemented **throughout the entire supply chain**.

The BBA develops **long-term partnerships** with clients and associations to enable **continued growth in both the UK and Global marketplaces**, while remaining reassuringly impartial.

As a for-profit organisation Limited by Guarantee, the BBA looks **to reinvest in the industry as a whole** for the benefit of all stakeholders.

What we do

Product Approval Certification

BBA Agrément Certification

Reproduction Certification

HAPAS

Testing

Audit and Inspection

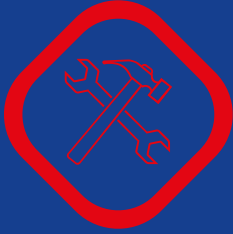

Management Systems

UKCA Marking

To date

6,000+
CERTIFICATES ISSUED

72+
COUNTRIES REPRESENTED
by CLIENT BASE

170+
BBA PEOPLE

50+
YEARS IN BUSINESS

400+
TESTING METHODOLOGIES

8,000+
ANNUAL INSPECTIONS AND ASSESSMENTS

What we'll cover;

- Trends in digital innovation
- Why digitisation plays a key role to ensure product assurance
- The relationship between digitisation and quality management
- Q&A

Digitisation Of Construction

Why Innovation MUST Come with Assurances

8th February 2022

Trends in Digital Innovation

1963 to the Future

Innovate
UK

When is the future coming?

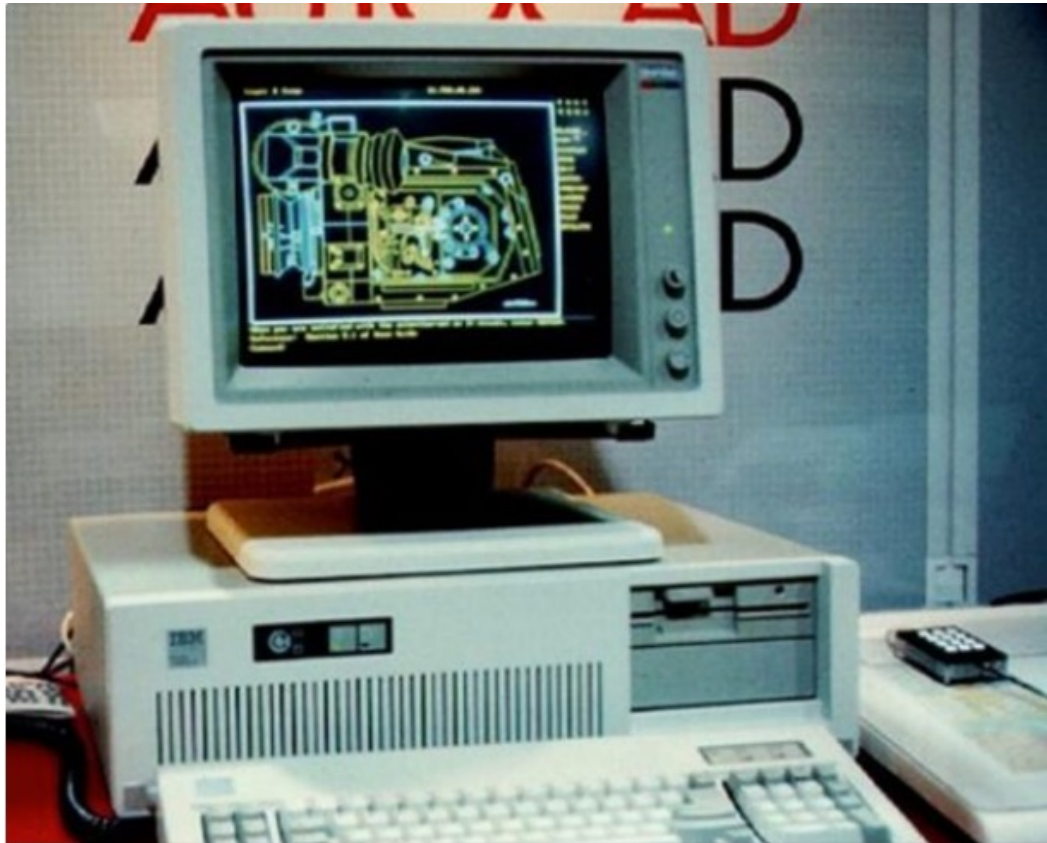

Ivan Sutherland developed **Sketchpad** in 1963 as part of his thesis at MIT—titled ‘Sketchpad, A Man-Machine Graphical Communication System’

Innovate
UK

The Future is now!

Autocad 1 1982

Innovate
UK

Are we there yet?

Innovate
UK

Why Digitisation

Plays a key role to ensure product assurance

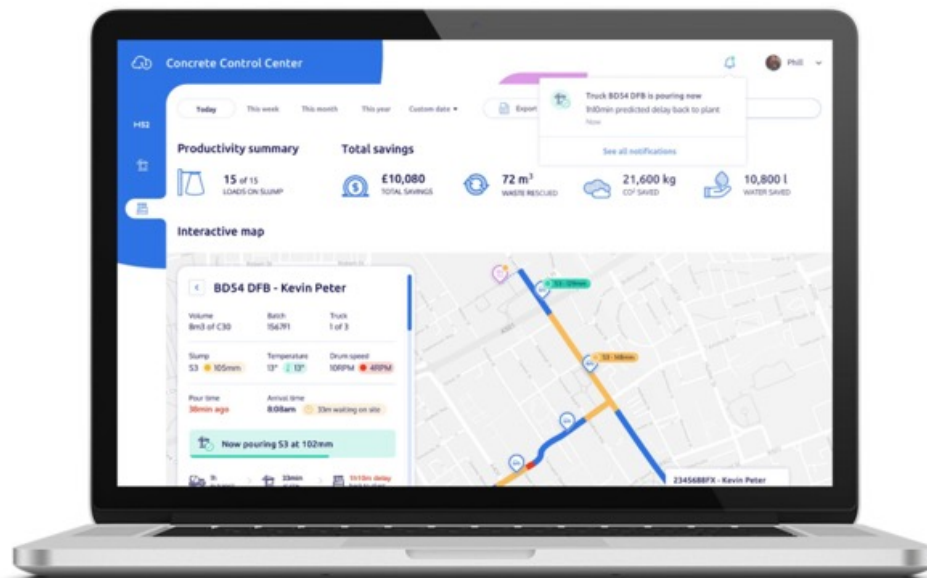

Innovate
UK

Cloudcycle

- **Concrete Digitised**

- Quality
- Operations
- Environment

Full real-time insights into concrete quality, logistics & operations

Innovate
UK

Cloudcycle

• Operational Improvements

- transparency for operations
- from the driver to the batch plant manage
- identify the individual performance of batch suppliers

Peter
Technical Manager
RMC

Reduction in manual slump tests (HS2)

Lower cost

Higher Coverage

Accepted by customer

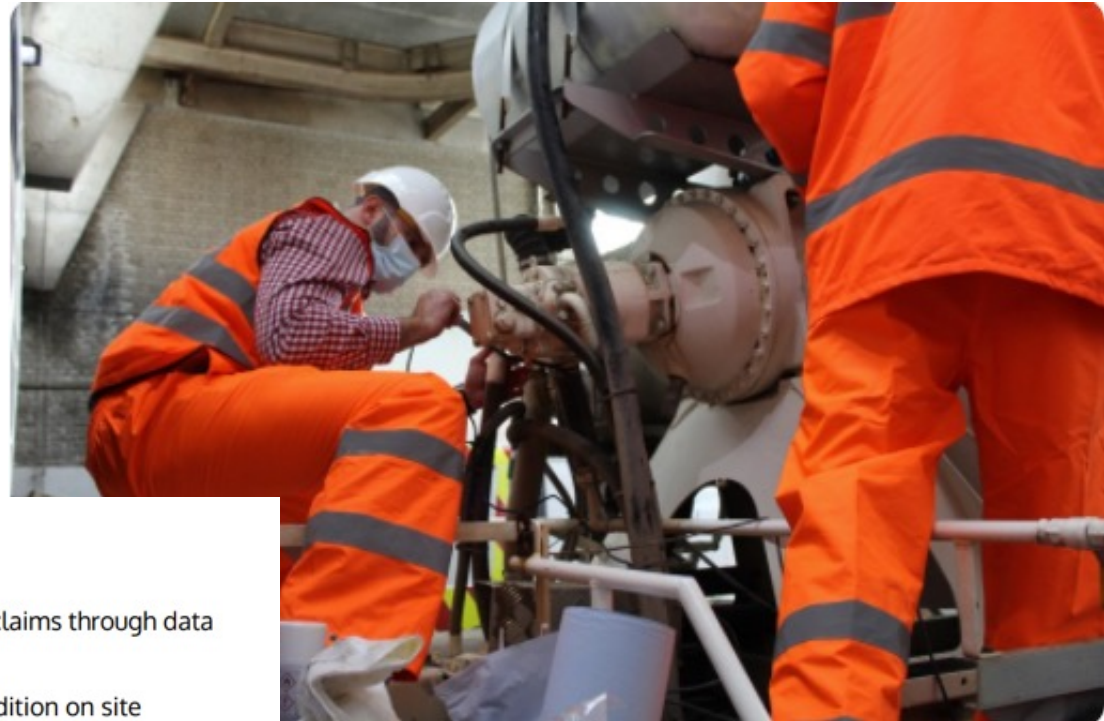

Innovate
UK

Cloudcycle

- **Quality Assurance**
- Gain unprecedented control over the quality of your ready-mix concrete with real-time monitoring and prediction of concrete's characteristic from order to delivery.

John
Shipping Manager
RMC

Prevent/resolve small claims through data

Unauthorised water addition on site

Quality upon delivery

Reduction in rejected loads

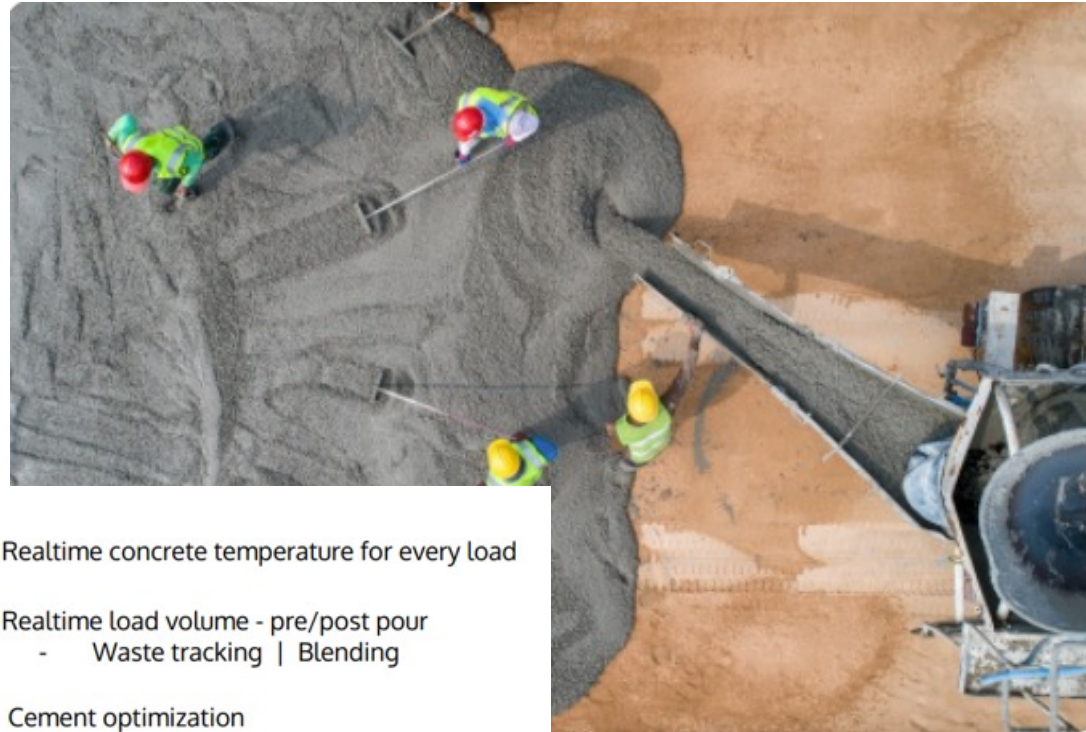

Innovate
UK

Cloudcycle

- **Avoid Waste**
- Machine learning interventions, eg. adding water maintaining specification
- Minimise potential of a failed test.
- Reducing failed tests decreases costs to

RMC
Technical & Operations

Realtime concrete temperature for every load

Realtime load volume - pre/post pour
- Waste tracking | Blending

Cement optimization

Last mile CO2 tracking

Realtime logistics insights
- Site waiting times

Innovate

The Relationship

Between digitisation and quality
management

Innovate
UK

Contilio

The world's most powerful 3D AI Engine, providing automated construction Progress, Quality and Predictive Risks in real-time, all from the cloud.

30%

We can only verify as-built quality for 10% of the sites manually, causing problems for commercial fitouts.

70%

Time to market and schedule predictability are becoming increasingly important for us – we need to augment decisions with data-driven insights.

45%

If we could only reduce maintenance costs 5%, that'd pay for our rents and utility costs - now think what that means for a portfolio of 20bn globally!

80%

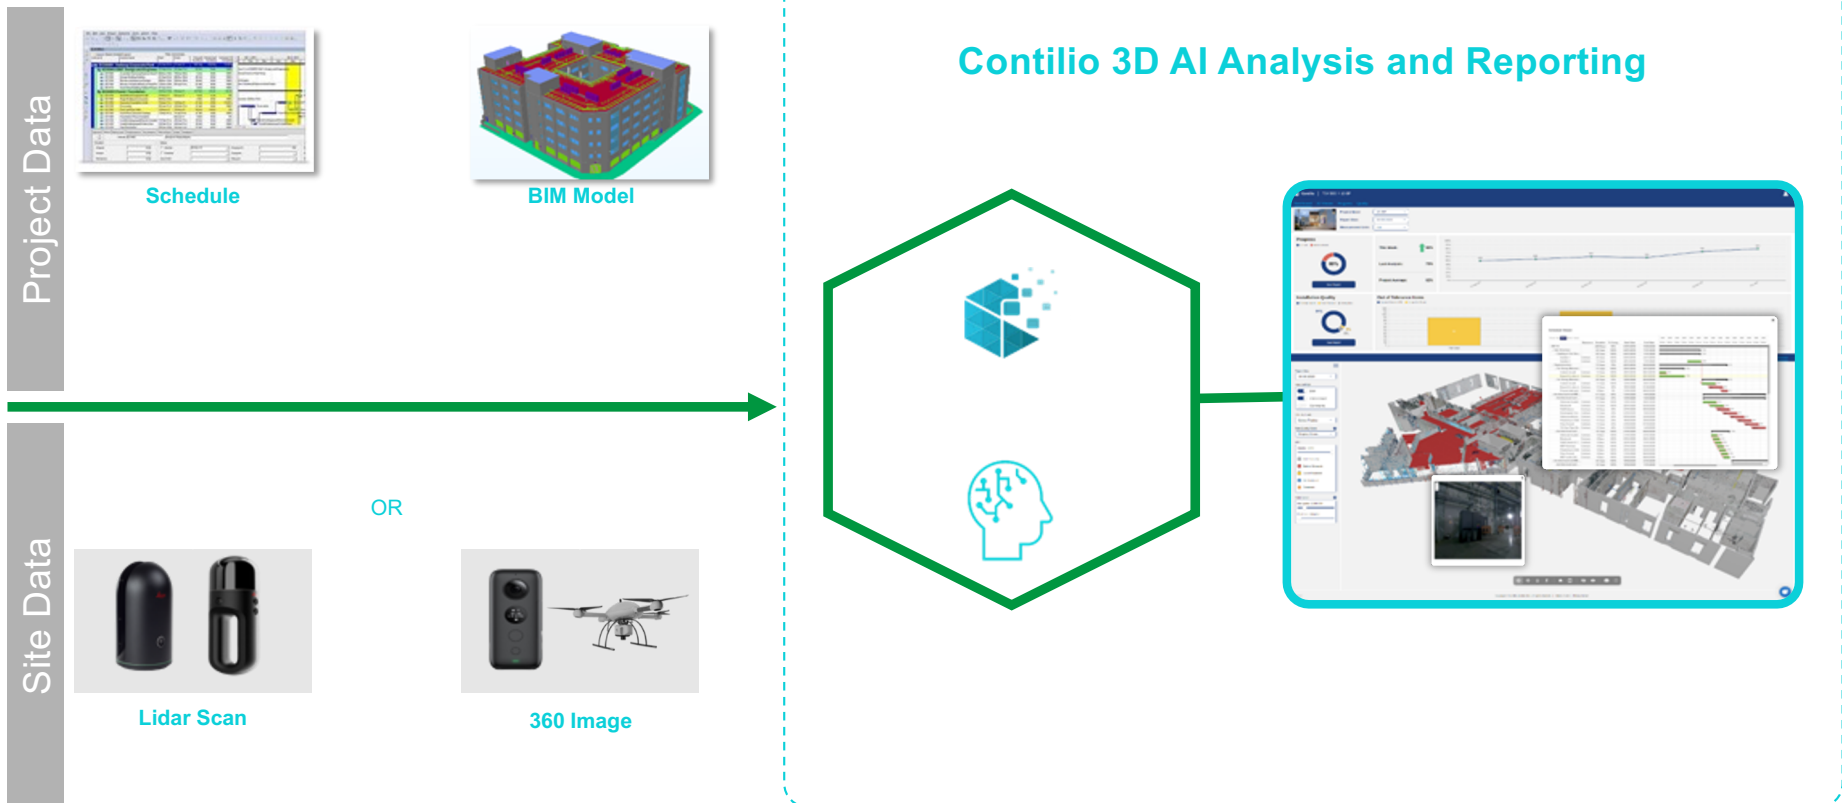

Life cycle digital twins that serve as a single-source-of truth are core to our partner's and our digital strategy.

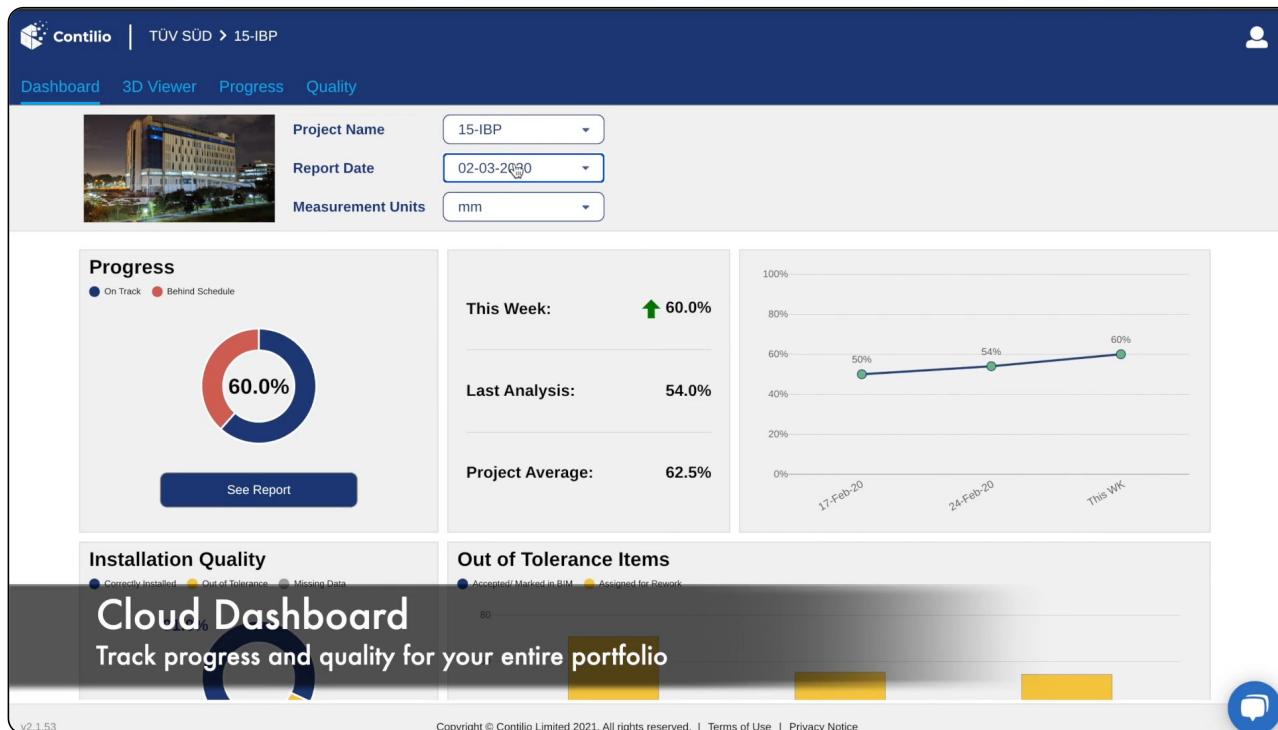

65%

We need to reduce construction waste and operate better, but we don't even know how to track our CO2?

Automated, AI Powered
Construction Progress

Automated, AI Powered
Installation Quality

Semantic and Structured
Construction Twin

Automated Schedule & BIM
Integration and Updates

And more...

What is in the near future
