

SUPPORTING INNOVATION TO CREATE A WORLD-CLASS HIGHWAYS NETWORK IN THE UK

H A P A S

WHAT IS IT?

The Highways Authorities Product Approval Scheme (HAPAS) is a scheme set up with a clear objective of developing national approval assessment, testing and certification for innovative products, materials and systems for use in highways and related areas, launched

WHO USES IT?

The HAPAS Certification Scheme was set up for any manufacturers & installers of products for use in Highways and related areas. Organisations who want to become a trusted producer and supplier of products into the UK highways network use the HAPAS certification mark to demonstrate product suitability, performance and compliance.

WHAT DOES IT COVER?

The BBA's HAPAS Certification schemes cover product sectors that include high friction surfacing systems, thin surfacing, crack and patch repair systems, and manhole reinstatement systems, involves a series of rigorous tests and assessments which includes both laboratory and field testing

"The BBA is a valued partner member of LCRIG, actively collaborating with the highways sector to share knowledge and best practice."
